All necessary procedures and precaution will be implemented to insure as high quality semen as possible.

It is mutually understood by the sire's owners, Hawkeye Breeders Service, Inc. or Gold Label, Inc. and their employees or associates that they do hereby mutually release each other from any and all liability in the event of injury or death of the sire(s), damage to semen during collection, of the above named sire, or from any injury sustained by Hawkeye Breeders Service, Inc., or Gold Label, Inc., employees or associates while handling said sire(s).

All outstanding charges must be resolved prior to removal of sire(s) from stud and/or semen released.

Sires will be handled professionally and under regular observation and care by our stud veterinarian. In the event that a sire should need care beyond what can be administered by our staff or veterinarian Hawkeye Breeders Service Inc. reserves the right to transport the bull to the Iowa State University Veterinarian Hospital at Hawkeye Breeders discretion and the owner's expense. Hawkeye Breeders will always try to contact the bulls owner prior to taking such action, but if an owner or authorized agent cannot be contacted Hawkeye Breeders will transport the bull as aforementioned if the bulls well being requires immediate action.

Hawkeye Breeders Service does not carry insurance on your sire(s) and/or semen collected while at our facility. Please note: Most Breed Associations require sires to be blood typed prior to semen sales. Owner needs to request DNA kit sent to the below address if Hawkeye Breeders needs to send samples.
